

Welcome to Kusler's and Clark's Compounding Pharmacies. I'm Dawn Ipsen, owner and pharmacist of both of these locations. We are your custom compounding experts.

Kusler's Compounding Pharmacy is located in Snohomish, Washington, and Clark's Compounding Pharmacy is located south in Bellevue, Washington. However, we do offer shipping services, so we actually service the entire state of Washington, as well as nine other states, including Oregon, Idaho, Arizona, and some other neighboring important states as well. We welcome you in. We're here to be your medication problem solvers.

You might be asking, "What is compounding pharmacy?" Well, I'm here to tell you. With compounding pharmacy, we custom make medications from scratch. We do that with the purpose of solving medication problems. Whether it be creating things that are custom dosed or hypoallergenic or different dosage form that already is available through your local retail pharmacy.

The analogy I like to use is a chocolate cake. Who doesn't love a chocolate cake? A chocolate cake is something that you can walk into most grocery stores or local establishments and buy a said chocolate cake. It would probably be fine, probably serve the needs of most people out there, but what if we need that extra special chocolate cake. That's where we would come in. Just as you would work with a custom bakery. We can change and manipulate the shape, the size, the ingredients that are used in that chocolate cake to make it the most perfect, exact chocolate cake that is exactly what you, as an individual needs. Same with medications. We make the medicine fit you, not you having to fit the medication.

You might be asking, well who do we compound for? Everybody. We help the whole family. From four-legged and furry to two-legged, walking, talking from birth to death. We're here to service all of your needs. So, yes you may have heard me say that we do also help pets. We are here to be veterinary compounding problem solvers as well. Whether it be your cat, your dog, your horse, your pet chicken, and even the exotics. We help the whole family. And that is true, birth to death. There are many babies born that have real, adult-type medical conditions. We're that special pharmacy that makes the medicine they need, at the dosage form and doses that are specific to their needs. All the way through middle aged and menopause and anthropause, and dermatology needs, dental needs, pain management. We do it all. We're here to solve medication problems. We look forward to helping you with that.

Now, I'm going to show you more of the pharmacy, and show you yet more other ways we can help your family. Follow me! At Kusler's and Clark's Compounding Pharmacy, we're more than just your average drugstore. We're your healthy living destination.

We carry pharmaceutical grade vitamins and supplements. Which means quality is on our shelves, and they have been tested by outside vendors to show that. Our pharmacists are experts in consulting with you about ways you might want to improve your lifestyle and your health. So be sure to come in or give us a call by phone to talk more about that. Some of the brands we carry are our own Kusler's/Clark's private label supplement brand. We also have Thorne, Pure Encapsulation, DaVinci, Integrative Therapeutics, and many, many more. And if you have something extra special that you would like, we're happy to order that for you. And we can even show you how to do that online through our online portal.

We are here to help you. We look forward to working with you and your family. So, give us a call or stop on in one of our locations, and talk more with our pharmacists to learn how we can improve your life. Have a great day. We'll talk to you soon.
